The World's special says:

The House Military Committee had under consideration yesterday the recommendations contained in the report of the Secretary of War. The committee have before them upwards of fifty petitions from all parts of the country, saking for equalization of the bounty to soldiers. Those who entered for one and two years received little if any bounty, while those entering at a later period, for one, two and three years, received three hundred dollars. The committee will bring in a hell equalizing the bounty among all the soldiers. The committee has also before them several propositions to reorganize the army. General Grant has prepared a bill for the purpose, which will receive careful consideration of the committee after the holidays.

The Republican of last evening has information that the Imperial troops in Mexico are approaching Vera Cruz with a view to embark for France. This seems to be supported by no detailed facts.
